

# 2024 ADULT SPECIALTY DIRECTORY

A PRACTITIONER'S GUIDE FOR REFERRALS

Dear Colleagues,

Since its inception, the M Health Fairview brand has combined the University of Minnesota’s deep history of clinical innovation and training with Fairview’s extensive roots in community medicine. We aim to provide increased access to the latest techniques and advances in medicine—which not only closes the distance from bench to bed, but also puts care closer to home for patients, families, and care teams. Our ultimate goal is to provide breakthrough medicine and transform the health of our communities for the better.

In bringing this vision to life, we rely on partnerships with referring physicians from across the metro, the state, the region, and the country. And, in an effort to improve the understanding of and access to our many areas of specialty, we’ve developed this useful directory as a tool to help you and your partners more easily navigate our system.

On the pages that follow you’ll find a comprehensive guide to our adult areas of specialty—including an overview of our specialty offerings, featured capabilities and services, locations, scheduling information, provider-to-provider consult resources, and Epic Path details by specialty.

Whether it is in one of our hospitals, ambulatory surgery centers, or local clinics, we hope to have the opportunity to partner with you when and where you and your patients can benefit from our 100+ areas of specialty. We also welcome the opportunity to discuss participation in one of our over 1,100 clinical trials, should that be a necessary path.

We look forward to partnering with you in the near future, and please feel free to reach out to either of us if you have any questions.

**Mark Welton, MD**  
Executive Vice President and Chief Medical Officer, Fairview Health Services

**Bevan Yueh, MD**  
Chief Executive Officer, University of Minnesota Physicians  
Vice Dean of Clinical Affairs, University of Minnesota Medical School

# KEY PERFORMANCE/RECOGNITION HIGHLIGHTS

M Health Fairview Masonic Children’s Hospital was once again recognized as the Twin Cities’ top-ranked children’s hospital by U.S. News and World Report, making it the longest-running top-ranked children’s hospital in the region.

M Health Fairview University of Minnesota Medical Center received the Vizient Rising Star award in 2023 and M Health Fairview Southdale was recognized as the Top Performer in the large, specialized complex care medical center cohort

In addition to being recognized as a High Performing Hospital for Maternity on the 2024 US News and World Report Best Hospital Rankings, M Health Fairview Ridges Hospital was also one of 73 hospitals across the nation recognized as a Maternity Care Access Hospital—highlighting the essential maternity care services and standard of care it provides to the region.

M Health Fairview Masonic Children’s Hospital is recognized as a Center Of Excellence by the National Organization for Rare Disorders (NORD).

Our M Health Fairview Clinic and Surgery Centers were regionally ranked #1 and #2 in Newsweek Magazines 2024 list of America’s Best Ambulatory Surgery Centers

M Health Fairview Southdale Hospital and M Health Fairview University of Minnesota Medical Center earned nationwide cardiac honors through Healthgrades’ 2023 and 2024 Specialty Excellence Awards

M Health Fairview University of Minnesota Medical Center, M Health Fairview Southdale, and Ridges Hospitals were ranked among the top 10 hospitals in Minnesota according to the *U.S. News & World Report* 2022-23 “Best Hospitals” list

The Masonic Cancer Center is the Twin Cities’ only Comprehensive Cancer Center, designated “Outstanding” by the National Cancer Institute since 1998

Newsweek Greatest Workplaces for Diversity

Newsweek recognizes Fairview as among the best Physical Rehabilitation Centers in the United States.

The American College of Cardiology recognized our dedication to quality performance by U.S. News & World Report’s “Best Hospitals” as a Proven Quality Program

We celebrated the most “Top Doctors” and “Rising Stars” of any health system in the state - 500 doctors across 70+ specialties

WOUND CARE

MEDICAL SPECIALTIESALLERGY

The dedicated allergists at University of Minnesota Health Allergy Care will customize testing to each person’s possible allergies. We can test for allergies to a wide range of environmental allergens, foods, insect stings, chemicals, cosmetics, and materials. We offer a range of testing options including skin prick/scratch testing, intradermal testing, and patch testing, as appropriate for the suspected allergen(s) of concern, to help diagnose different types of allergic reactions.

MENTAL HEALTH AND SUBSTANCE ABUSE SERVICES

ADDICTION MEDICINE

Our Addiction Medicine service specializes in diagnosis, prevention, treatment, and recovery for individuals with substance use disorder (SUD). We have a multidisciplinary and diverse team to serve any and all needs related to substance use and mental health concerns. Our whole-person approach supports long-term recovery. Medication for Addiction Treatment (MAT), which includes medications for withdrawal symptoms and cravings, is regularly prescribed by our medical providers.

FEATURED CAPABILITIES

Virtual, in-person and (in one location) tele-med appointments are available to create improved access for all. Patients can even use video equipment at our clinic to connect virtually with a provider at another site if we don't have an in-person appointment that meets their needs.

MENTAL HEALTH AND SUBSTANCE ABUSE SERVICES

ADOLESCENT PROGRAMS

Adolescent programs service patients 12-18 with mental health and substance use disorders. All programs provide dual diagnosis and substance use disorder assessments, daytime intensive outpatient treatment that includes group, individual, and family therapy as well as medication management with a psychiatric provider and a two-hour educational component during the school year. Residential programming includes group, individual, and family therapy, medication management with a psychiatric provider, recreation, a three-hour educational component, as well as room and board.

FEATURED CAPABILITIES

Programs located throughout the metro area serving adolescents with cooccurring disorders.

SERVICES

- Comprehensive/substance use disorder assessments

- Adult comprehensive substance use assessment
- Adult dual-diagnosis diagnostic assessment
- Adult mental health diagnostic assessment
- Child and adolescent mental health diagnostic assessment
- Inpatient comprehensive substance use assessments and consultation for adults
- Inpatient diagnostic assessments for adults

MENTAL HEALTH AND SUBSTANCE ABUSE SERVICES

CHILD AND ADOLESCENT DAY TREATMENT PROGRAMS

The Child and Adolescent Day Treatment Programs in Minneapolis and Maplewood offer Intensive Outpatient (IOP) and Partial Hospitalization services to clients in need of treatment for mental health conditions. Treatment consists of group and family therapy as well as weekly contact with a medication provider. The clients receive two hours daily of education services by a certified teacher. Child Day Treatment Minneapolis treats clients ages 6-12. Adolescent Day Treatment Minneapolis treats clients ages 13-18. The Maplewood Adolescent Program targets clients ages 11-14.

FEATURED CAPABILITIES

The program provides individualized treatment approaches, which include cognitive behavioral therapy run by a licensed therapist as well as experiential approaches which include music and art therapy as well as therapeutic recreation.

MENTAL HEALTH AND SUBSTANCE ABUSE SERVICES

COLLABORATIVE CARE PSYCHIATRIC SERVICES (CCPS)

The Collaborative Care Psychiatric Services (CCPS) model allows for M Health Fairview patients to receive psychiatric care without leaving the care system. Primary care providers (PCPs) are able to refer patients to the service during a visit, if they deem specialty services are necessary. The CCPS providers are able to see patients in an attempt to optimize medications — they generally see patients a few times only, and then if stable will return to PCP for ongoing medication management and refills. If after a few visits the patient remains unstable, the provider can choose to continue to see the patient longer or refer to long-term community psychiatry.

## ORTHOPEDIC SURGERY

M Health Fairview offers care for all orthopedic injuries and conditions in adults and children. Our specialists treat ankles, feet, hands, hips, knees, shoulders, elbows, and spine (see Spine page [57](#)), including conditions as common as arthritis and as specialized as musculoskeletal tumors.

**PROVIDER-TO-PROVIDER CONSULT: 612-672-7100**

**WEBSITE:** [mhealthfairview.org/categories/Bone-And-Joint-And-Muscle](http://mhealthfairview.org/categories/Bone-And-Joint-And-Muscle)

## TREATMENT FOR

- Arthritis, fractures, and dislocations (all bones and joints)
- Foot and ankle disorders (arthritis, bunions, deformities resulting from fractures or overuse, flat feet)
- Hand, wrist, and elbow conditions (congenital hand differences, stiff elbow, nerve injuries)
- Hip (femoroacetabular impingement, labral tears)
- Patella (instability, pain, arthritis)
- Shoulder (rotator-cuff disease, arthritis, labral tears)
- Spine (disc herniation, scoliosis, spinal stenosis) (see Spine page 57)
- Sports medicine (cartilage damage, ligament and meniscus injuries)
- Tendon injuries (Achilles, biceps, elbow extensor/flexor, lacerations)
- Tumors (Ewing's, metastatic disease, osteosarcoma — all locations including spine)

NEUROSCIENCES

NEUROPSYCHOLOGY

Our board-certified clinical neuropsychologists use a battery of cognitive exams to make inferences about brain function. Such testing is useful in the treatment of degenerative processes such as Parkinson’s disease, dementia, and multiple sclerosis. We also evaluate a patient’s eligibility for procedures such as deep brain stimulation, epilepsy surgeries, bariatric surgery, and heart/lung/liver transplants.

**PATIENT REFERRAL SCHEDULING:** 612-624-1412  
**PROVIDER-TO-PROVIDER CONSULT:** 612-624-1412

NEUROSCIENCES

NEUROSURGERY

The M Health Fairview Neurosurgery program combines the expertise of our regional and nationally recognized neurosurgeons with advanced, state-of-the-art technology to provide outstanding neurosurgical care for some of the most difficult problems facing neurosurgical patients today. Whether your patient’s condition is common or complex, you can trust our university and community neurosurgeons to have expertise and experience, ensuring your patients receive the highest quality and best service.

**PATIENT REFERRAL SCHEDULING:** 651-232-3900  
**EPIC PATH:** Neurosurgery Referral  
**WEBSITE:** mhealthfairview.org/specialties/neurosurgery

The use of advanced technology, such as interoperative MRI, imaging-guided endoscopy and stealth navigation, robotically assisted spine surgery, and Gamma Knife radiosurgery, makes M Health Fairview the most technologically advanced program in the Twin Cities.

Knowing your patients will have access to subspecialized neurosurgeons in the areas of general neurosurgery, deep brain stimulation (DBS), endovascular, neuro-oncology, skull base surgery, complex spine surgery, and pediatric neurosurgery adds confidence you’ve referred to one of the best programs in the region — M Health Fairview Neurosurgery.

FEATURED CAPABILITIES

- Center for Craniofacial Pain
- Deep Brain Stimulation (DBS) Program
- Gamma Knife Center (stereotactic radiosurgery)
- Minnesota’s First intraoperative MRI T-suite
- Robotically Assisted Spine Surgery Program
- Skull Base Surgery Institute

SERVICES

Comprehensive neurosurgical care for the following conditions:

- Brain tumors and neuro-oncology
- Cerebrovascular (stroke) disease
- Cranial shunts
- Craniofacial disorders
- Endovascular neurosurgery and aneurysm repairs
- Epilepsy and seizure disorders
- Movement disorders

- Neuromodulation and spinal stimulators
- Pediatric neurosurgery
- Peripheral nerve decompression
- Spinal disorders, deformity, and spine tumors
- Stereotactic and functional neurosurgery
- Tumor treatment - general neurosurgery

SURGICAL

COLORECTAL

M Health Fairview surgeons are skilled in performing colon and rectal operations. Many anal and rectal disorders can be treated during the course of one visit to our Surgery Clinic. If you have a more complex condition, we will assemble a multidisciplinary team to care for you, using the most modern therapies and surgical skills available today. Most of our operations are minimally invasive, providing you with smaller incisions, less pain after surgery, a shorter hospital stay, and faster recovery. We specialize in bowel preservation and sphincter-sparing surgery to preserve your natural bowel function.

**PATIENT REFERRAL SCHEDULING:** 612-336-2727

SURGICAL

EYE CARE

University of Minnesota Health ophthalmologists offer diagnostic expertise and patient care for the full spectrum of eye conditions, including but not limited to cataracts, corneal disease, glaucoma, oculoplastic and orbital disorders, neuro-ophthalmology, and retinal diseases. The university also has state-of-the-art retinal imaging technology and the most advanced surgical equipment (including stealth imaging to perform complex orbital surgeries), and we offer specialized screening exams and tumor treatment, as well as screening for retinopathy of prematurity. We have three convenient locations to serve patients.

TRANSPLANT, SOLID ORGAN

SOLID ORGAN TRANSPLANT

We have more than 50 years of experience in the clinical care of over 16,000 organ and cell transplant recipients of heart, lung, kidney, liver, pancreas, islet, or intestine transplants. We have cared for more than 5,000 living organ donors. Because our physicians from different specialty areas work together closely, we are highly skilled at treating patients who have medical problems with more than one organ, such as kidney and liver disease. We've been consistently ranked as a top provider by national and local publications.

WOMEN’S HEALTH

OBSTERIC AND GYNECOLOGIC CARE

Providers who specialize in obstetrics and gynecology offer women care they need during all stages of life. We have the largest OB/GYN and midwife team in the state, and our first-class team of physicians, physicians assistance, certified nurse midwives, and advanced practice nurses are specialists in women's health. We're dedicated to focusing on the whole person and making use of all appropriate therapeutic approaches and disciplines available. We have implemented a new model of integrative medicine for women in a unique woman-centered environment and work with you to develop a comprehensive preventive and/or treatment plan for the best possible outcomes.

- Pricing structure assessment/feasibility analysis
- Web-based portal for online order entry, results retrieval, or interface to providers’ EMR and practice management system(s)

MEDICATION THERAPY MANAGEMENT

M Health Fairview Medication Therapy Management (MTM) is a service designed to help you get the most from your medicines. Our specially trained pharmacists work closely with you and your other providers to solve any problems related to your medicines to help you get the best possible treatment results.

REASONS TO CONSIDER MTM

Managing your health becomes more difficult if you are taking more than one kind of medicine. You may wonder:

- Are my medicines working the way they should?
- Can I do anything about their side effects?
- Am I taking them in the right order and at the right time of day?
- Are my medicines interacting with each other?
- Why am I taking all these medicines?
- Are all my medicines really making me feel better?

We can help you answer these questions and get the full benefits from the medicines you take.

PERSONALIZED ADVICE TO GET THE MOST OUT OF YOUR MEDICATIONS

During a private meeting — by phone, web, or at one of our many service locations — your MTM pharmacist will review your medicines and answer any questions you may have. You'll get a list of all your medicines with detailed advice on how to get the most out of them.

Working with your other providers, your MTM pharmacist will review your health status and treatment plan. This way, your pharmacist can help make sure that:

- You are taking the right amount of medicine
- Your medicines are not interacting with each other
- You are taking only the medicines you need
- Any vitamins, supplements, or over-the-counter drugs you are taking are safe and effective
- You are not spending more than you need to for your medicines

MTM MAKES A DIFFERENCE

Patients using MTM are more likely to feel better, be healthier, and get the benefits they expect from their medicines.

APPOINTMENTS

CALL: 612-672-7005

TOLL-FREE: 866-332-3708

EMAIL: mtm@fairview.org

WEB: fairview.org/services/medicationtherapy-management

Call or email to schedule an MTM appointment. Appointments are available at more than 50 M Health Fairview clinic locations, and you do not need to be a patient of an M Health Fairview clinic or hospital to use our MTM service.

CONVENIENT SERVICE OPTIONS

- Face-to-face visits at any of our 50+ locations
- Phone consultation

PHARMACY

FAIRVIEW COMPOUNDING PHARMACY

Fairview Compounding Pharmacy (part of Fairview Pharmacy/M Health Fairview) provides extensive compounding and consulting services with expert staff, high quality standards, local production, and free delivery for optimal patient care and convenience.

We welcome the opportunity to partner to serve your patients' complete compounding needs.

SERVICES

- Easy refill options
- Free delivery to patient's residence or pick up at any Fairview Pharmacy
- Most insurance plans are accepted. Pharmacy staff informs the patient of their out-of-pocket cost
- Patients are contacted within one business day of receiving the prescription, often the same day
- Wide variety of compounded medications (see examples below)

EXAMPLES OF OUR MOST COMMON COMPOUNDS

- Allergy immunotherapy serums
- Bio-identical hormone replacement
- Hypoallergenic formulations
- Low-dose Naltrexone (LDN)
- Microdose Lupron
- Nonsterile: liquids, capsules, troches, suppositories, nasal sprays
- Orthopedic surgery injections/irrigations: knee, hip antibiotics, etc.
- Sterile: injections, irrigations, inhalations, drops
- Surgical pain pumps: bupivacaine, ropivacaine, etc.
- Topical pain creams

THREE EASY WAYS TO PRESCRIBE

1. Electronic prescribing: listed as "Fairview Compounding Pharmacy"
2. Fax: 866-342-7647
3. Phone: 612-672-5737

EASY REFILL OPTIONS

We recommend patients contact Fairview Compounding Pharmacy seven days in advance for their refills. They can use the automated refill line, speak with pharmacy staff, or leave the request on a secured voicemail.

FREE DELIVERY OPTIONS

The patient can either have their prescription(s) delivered directly to them\* or have them sent to the nearest Fairview Pharmacy for pickup. Pharmacy staff will call patient directly for insurance and payment information.

\*May be restricted under insurance plan; we will verify on patient's behalf.

711 Kasota Ave. SE, Minneapolis, MN 55414

CALL: 612-672-5737 or 866-563-3512

PHARMACY

FAIRVIEW SPECIALTY PHARMACY

COMPREHENSIVE AMBULATORY PHARMACY SERVICES  
INCLUDING PRIOR AUTHORIZATION

Fairview Pharmacy Services (part of M Health Fairview) provides additional services as our standard of care for each prescription received. Services include complete Prior Authorization (PA) support covering the clinical portion and follow-up with insurance. Further, we navigate the time-consuming process of investigating your patient’s benefits and searching for copay assistance along with other services.

COMPREHENSIVE AMBULATORY PHARMACY SERVICES

Specialty, outpatient infusion, home infusion, compounding, mail order, and retail medications

- Prior authorization support (Specialty)
- Benefit verification
- Copay assistance
- Patient assistance program management
- Reimbursement support
- Enrollment in manufacturer-specific programs
- Access to needs-based manufacturer programs
- Additional services upon request

SINGLE POINT OF CONTACT

Fairview Pharmacy Services saves your clinic time and avoids medication delays and interruptions for your patients.

THERAPY MANAGEMENT SUPPORT

We work together with your clinic to monitor your patient’s medication care plan and have expertise in over 15 disease states.

COMMUNICATION WITH YOU

Ability to provide tailored communication to meet the clinic’s needs. This includes reporting information for specific patients.

*\*Note, if we are unable to fill a prescription, we will triage it to the appropriate pharmacy.*

*Fairview Specialty Pharmacy was awarded 2019 NASP Specialty Pharmacy of the Year, and is URAC and Joint Commission accredited.*

If transmitting electronically, select “FAIRVIEW MAIL ORDER/SPECIALTY PHARMACY” from your EHR drop-down list.

RADIOTHERANOSTICS

M Health Fairview University of Minnesota Medical Center’s dedicated, five-bed radiotheranostics unit is the first of its kind in Minneapolis-St. Paul offering both diagnostic and treatment options. Additionally, the center has been named a Radiopharmaceutical Therapy Center of Excellence by the Society for Nuclear Medicine and Molecular Imaging (SNMMI).

Radiotheranostics is considered the most clinically advanced application of targeted therapy, and uniquely offers patients an advanced therapy option with improved outcomes.

M Health Fairview radiotheranostics’ team of oncologists and nuclear medicine radiologists offers treatment for patients with the following diagnoses:

- I-131 for thyroid cancer
- Radium 223 Xofigo® for metastatic prostate cancer
- Lu-177 Lutathera® for neuroendocrine tumors
- Y-90 microspheres for treating colorectal cancer that has metastasized to the liver
- 131-I MIBG for pediatric neuroblastoma, as well as for neuroendocrine and paraganglioma tumors

NEW IN 2022

FDA approved Lu-177 PSMA treatment will be offered for treating metastatic castration-resistant prostate cancer (MCRP). Additionally, Cerianna™ PET imaging for HER2-positive breast cancer as an adjunct to biopsy in patients with recurrent or metastatic breast cancer is now available.

For general questions about radiotheranostics, please contact: Brad Humphrey, Nuclear Medicine Manager.  
**DIRECT PHONE:** 612- 273-9275  
**EMAIL:** brad.humphrey@fairview.org  
**M HEALTH FAIRVIEW RADIOTHERANOSTICS**  
**DEPARTMENT PHONE:** 612- 273-5760

REFERRAL PROCESS

After the referral is submitted, our pre-authorization team reviews the order and, upon approval, contacts the patient to schedule. If pre-authorization is denied, the referring provider and patient discuss alternative plans.

HOW TO REFER AND ORDER IMAGING

External providers: Please fax signed written orders and insurance information to 612-273-6814, including patient demographics and both patient and ordering clinician direct callback numbers.

Internal providers: Place future orders in EPIC and send in-basket communication to the theranostics pool to initiate the pre-authorization process.

HOW TO REFER AND ORDER FOR ANY OF THE TREATMENTS NOTED

External providers, please call 855-486-7226.

Internal providers can place Oncology/Hematology Adult Referral [9023]. Enter information into the “My Clinical Question is” free text field on why you are referring and select Medical Oncology in the “Reason for Referral.”

LOCATIONS

Diagnostic imaging is available at two M Health Fairview locations; treatment is offered at M Health Fairview University of Minnesota Medical Center - East Bank:

**M Health Fairview University of Minnesota Medical Center - East Bank**  
Diagnostic Imaging and Radiotheranostics Treatment  
500 Harvard St. SE  
Minneapolis, MN 55455

**M Health Fairview St. John’s Hospital Imaging Center**  
Diagnostic Imaging

ADULT REHABILITATIONVESTIBULAR REHABILITATION

M Health Fairview offers adult vestibular therapies that are comprehensive, individualized, and innovative. Our expert therapists have advanced training in evaluating and treating vestibular and neurological disorders. They collaborate with audiologists to complete comprehensive balance testing. Our approach uses evidence-based technologies and exercise to reduce dizziness and improve balance/ stability, allowing our patients to remain independent and enjoy a better quality of life.

SERVICES

- Balance impairments
- Benign paroxysmal positional vertigo (BPPV)
- Dizziness
- Persistent postural perceived dizziness (3PD)
- Post-concussion symptoms
- Vestibular disorders
- Vestibular migraine

TREATMENTS/PROGRAMS

- Balance assessment and retraining
- Canalith repositioning
- Cervicogenic screening
- Computerized dynamic posturography
- Dynamic visual acuity testing (DVAT)
- Gaze stabilization exercise
- Oculomotor exam
- Positional testing with infrared goggles

For more details on these treatments, conditions, and programs, please click [HERE](#).
