Nature Based Therapy Program

Nature Notes- Corn Sweat

Humans aren't the only ones who sweat when it gets hot! Plants also cool themselves by shedding water during extreme heat via a process called evapotranspiration, where water is released through tiny pores in their leaves. One acre of corn can 'sweat', or release 4,000 gallons of water into the air in one day! Grab a copy of Nature Notes at the front desk of your unit to learn more!

Ambassador Program

Our patient families are our best advocates and supporters. The program offers unique opportunities to get involved while staying connected to the hospital. Members are able to attend fun events, share their story, volunteer, & much more! Sign up using the QR code!

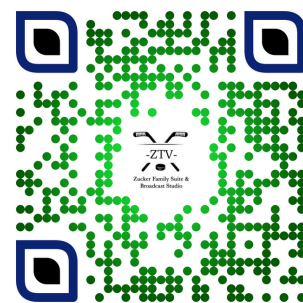

Children are required to be accompanied by a responsible adult. Spaces/events marked with an * follow isolation guidelines.

If you are unable to enter one of our spaces, please give us a call to obtain resources, thank you!

ZUCKER FAMILY SUITE AND BROADCAST STUDIO

The Zucker Family Suite and Broadcast Studio is an interactive closed-circuit television studio for patients and families. Tune in to **Channel 12** everyday for various shows that promote creativity, fun, and relaxation! Programming supplies are delivered prior to shows that require materials. Need supplies or want to try hosting a show from your room, give us a call! Scan the QR code for a short video about ZTV!
